Professional Summary

Computer Science undergraduate focused on Data Analysis, with hands-on experience developing skills in Python, Pandas, NumPy, and Power BI. Interested in data cleaning, visualization, and transforming data into meaningful insights to support data-driven decisions. Currently building practical analytical skills with the goal of exploring Data Science in the future.

Technical Skills

Programming Languages: Python (Basic), SQL

Data Analysis: Pandas, NumPy, Data Cleaning, Exploratory Data Analysis (EDA)

Data visualization: Power BI,Matplotlib

Database: SQL Server, MySQL (Basic), MongoDB

Tools: Microsoft Excel, Jupyter Notebook, Git, GitHub

Projects

Cricket Performance Analytics Dashboard | *ICC Men's T20 World Cup 2022*

- Developed an interactive Power BI dashboard to analyze player and match performance using tournament data.
- Created KPIs and player analysis views for Power Hitters, Anchors, Finishers, All-Rounders, and Bowlers.
- Used DAX, MySQL, data modeling, and interactive visualizations to generate performance insights.

Hospitality Performance Analytics Dashboard

- Developed an interactive Power BI dashboard to analyze revenue, RevPAR, ADR, occupancy, realization, and property performance.
- Analyzed booking platforms, property categories, and week-over-week performance using interactive filters.
- Applied DAX, data modeling, KPI development, and data visualization to present business insights.

Sales and Profitability Analytics Dashboard

- Developed a Power BI dashboard to analyze revenue, sales quantity, customer and product performance, and profitability.
- Analyzed revenue trends, profit margins, and contribution across customers, products, and markets.
- Used SQL, MySQL, DAX, data modeling, and visualization to transform sales data into actionable insights.

Finance Analytics Dashboard

- Developed an interactive Power BI dashboard to analyze income, expenses, savings, and financial performance.
- Tracked financial KPIs, month-over-month income trends, savings targets, and expense breakdowns.
- Used DAX, data modeling, and data visualization to transform financial data into actionable insights.

Personal Portfolio Website | *Python*

- Redesigned and developed a personal portfolio website using Python to showcase data analytics projects, technical skills, and professional information.
- Featured projects in Sales & Profitability Analytics, Hospitality Performance Analytics, and Cricket Performance Analytics.
- Implemented a responsive user interface for desktop and mobile devices.

Education

University of Jaffna — Sri Lanka
Bachelor of Science in Computer Science (3-Year General Degree) — *Sep 2023 – Nov 2026*

G.C.E. Advanced Level (Physical Science Stream) — 2021
Km/Km/Al-Ashraq National School (MMV) — Results: B2C — Z-Score: 1.160

Leadership & Activities

- Vice-Captain of the University Men's Badminton Pool, demonstrating leadership, teamwork, and discipline.
- Participated in the Sri Lanka University Games(2025), Inter-University Badminton Championship(2026), and achieved Inter-Faculty Badminton Championship – Champion (2025) and 3rd Place (2026).
- Assistant Secretary of the Department Computer Society, coordinating events and student activities.
- Member of the monitoring team for coding competitions organized by the Computer Society, ensuring smooth execution of events.
- Served as a Prefect in the school, supporting school activities, maintaining discipline, and assisting teachers and students

Languages

Tamil (Native) Sinhala (Fluent) English (Fluent)
